Year-long Program I Financial Aid Application Process

We offer payment plans, work-study grants and partial scholarships to help make it possible for people to attend these programs. For many, a payment plan of installments paid over the program year is sufficient to make the program affordable. You do not need to send us a Financial Aid Application for this. For some, we offer work-study grants and partial scholarships to provide additional help. To apply for these you will need to send us a Financial Aid Application.

First

Contact us with your questions about the program, and about Financial Aid.

Then

Send us your Year-Long Program I Application form [link] (by e-mail or snail-mail) and \$300 tuition deposit (by PayPal or snail mail). We will refund this deposit if, after you receive our response about financial aid, you decide not to attend.

And

Send us your Financial Aid Application, which includes 2 things:

1. Your answers these questions:
 - a. Why do you seek financial aid?
Describe the specifics of your financial situation.
 - b. What is the minimum you would need in order to attend the program?
 - c. What other financial resources have you tried?
 - d. Would you be able to do work-study?
2. A copy of pages 1 & 2 of your most recent federal tax form 1040 or 1040 EZ.
Please be assured that we will protect the privacy of the information you send us.

Finally

Finish your application to the Year I program by sending us your bio and resume. We will contact you as soon as we receive these materials. Don't hesitate to contact us with any questions.
